

**CIVIL AIRLINER PILOTS
IN DIFFERENT POSTURES
CR144-804, -805, -806**

**AIRLINER SERIES
1/144 SCALE**

Your product shall have the following **contents**:

- spruce with **6** (CR144-806) or **8** (CR144-804/805) **different pilots**.

Instructions:

1. Remove supports on arms and legs of the pilot using side cutters or a resin saw. Keep the figure connected to the base via two to three supports. Resin is brittle, be careful not to break off limbs.
2. Paint the pilot figure in your desired colors. Refer to images of the airline's uniforms you plan to build.
3. Remove the remaining supports and paint over the areas where the supports connected to the torso.
4. Place the pilots into the painted cockpit and you're **done!**
